## Praise for the *First Edition*

*“The book is very comprehensive. It gives plenty of practical examples and also refers to teaching and learning theory.”*—Martin Lightfoot in **Management & Education**

*“This **Handbook** contains advice and approaches for teaching practices that both new and seasoned faculty can employ to revisit and revitalize what goes on in their classrooms.”*—Margaret E. Holt, *University of Georgia*

Since the *First Edition* of **The Adjunct Faculty Handbook** was published in 1996, the number of adjunct faculty members in colleges and universities has increased to the point that most of those institutions could not function efficiently without them. This Second Edition addresses changes in today’s higher education environment and their impact on the role of adjunct instructors. At a time when many adjuncts may be given little more than a start date, room number, and brief course description to prepare them for teaching a course, the **Handbook** provides administrators as well as part- and full-time faculty members with the resources they need to empower adjunct staff.

## Key Features

- **Provides important tools for adjunct instructors**, including handy checklists, sample syllabi, evaluation forms, and case studies
- **Offers a full chapter on the role of technology** in teaching and learning, plus another on future trends, including network technologies
- **Covers the increased emphasis on student evaluations and learning outcomes assessment** as well as changes in classroom dynamics and what these mean for today’s adjunct faculty
- **Addresses both theory and skill**, covering topics such as course planning, teaching strategies, theories of learning, cooperative learning, student evaluations, Web 2.0, professional development, and more
- **Includes practical advice** for designing policies for adjunct programs and for evaluating adjunct instructors, who comprise more than two-thirds of the college instructors in the United States today

## TABLE OF CONTENTS

Preface

Bryan Booth, Lorri Cooper

1. Preparing to Teach: Considerations of Administration, Students, Technology, and Educational Results

Lorri E. Cooper

University and Program Administration

Student Administration	
Planning and Support	
Ethics and Academic Freedom	
Reflection on Teaching	
2. Technology in Education	Theodore E. Stone
Introduction	
The Face-to-Face Teaching Experience	
So What Do Students Really Want?	
Setting up the Basics	
Beyond the Basics	
Gaining Access to the Technology-Rich Classrooms	
Hybrid Classes, Web 2.0, and Online Learning	
Resources for Hybrid Courses	
Distance Learning and the Adjunct Faculty	
A Few Words about the CMS	
The Online Professor's Multimedia Tool Kit	
Conclusion	
3. Environment of Learning: Connecting with Students	Cynthia H. Roman
Introduction	
Theories of Student Learning	
Students' Readiness for Learning	
How Students Become Adult Learners	
Reaching and Relating to Students	
Dialogue in the Classroom	
Questioning Skills	
Learning Strategies for the Online Classroom	
Establishing an Environment for Learning	
4. Teaching Methods: Preparation and Application	Cynthia H. Roman
Instructional Strategies	
Evaluating Learning	
Developing Lessons Plans	
Course Syllabus	
Giving Students Feedback	
Program Philosophy	
Outcomes Assessment	
Conclusion	
5. Professional Development of the Adjunct Faculty	Jodi R. Cressman
Introduction	
Professional Development Activities for the Adjunct Faculty	
Professional Development for Adjunct Faculty: Suggestions for Deans, Chairs, and Program Coordinators	
Conclusion	
6. Evaluation of Student Performance	Susanne Bruno Ninassi

Introduction

Faculty Evaluation of Students

Self and Peer Evaluations

Grading Policy

Grading Issues

What is Academic Integrity

Types of Violations

Adjunct Faculty's Role

Role of Technology in Academic Integrity

Conclusion

7. Future Trends: Network Technologies and Adjunct Faculty

Terry D. Anderson, Vera L.B. Dolan,  
Bryan A. Booth

Introduction

Technology-based Communication and Implications for Adjuncts

Network Technology: Adjunct Work and Learning

Applications of the Groups/ Networks/Collectives

Conclusion
